

# SECURE EYE - SERIES

1080p **FULL HD HD-SDI**

iridix DRC Super Wide Dynamic Day&Night Full HD Multi-Purpose Information Camera.

## SNC-GPL90 Special Polarization Vari-Focal Lens

### SecureEye-1080p series OPTION Catalog

SNC-GPL90 is different from other general PL filters in that it is polarizable not only visible radiation but also near-infrared light and the first PL filter in the world achieved overwhelming optical transmittance. (Patent pending)

In case of transmission of natural light, this is able to polarize at 70% of optical transmission at peak.

In case of transmission of P or S wave polarized, this is able to polarize at average 90% of optical transmission.

SNC-GPL90 is enabled to resolve interfering reflection and glare without reducing the light intensity. You have never experienced this advantage.

#### Specification

Focal length	5~50mm(10X)
Diaphragm range	F1.6~T360(equivalent of F360)
Operation	<input checked="" type="checkbox"/> Zoom / Manual <input checked="" type="checkbox"/> Focus / Manual <input checked="" type="checkbox"/> IRIS / Manual <input checked="" type="checkbox"/> Focus range / Manual

## Housing / Near-IR LED

---

### SecureEye-1080p Model

I Camera Housing

I Near-Infrared LED Illumination

## 1CH H.264 Full HD Video Server

---

### HVS-2000

Encode / Decode H.264 (Selectable)

Accept HDMI / HD-SDI (Selectable)

Full HD video (1920 x 1080, 30p / 60i)

High sensitive Motion detection

## HD-SDI Repeater

---

### RP-102S

#### Feature

HD-SDI (1080/59.94i)

1 x Input / 2 x Output

Extend SDI cable by setting every 100m

## Outdoor PTZ system

---

### APTO Series

Provide High-performance and Cost-effectiveness at outside surveillance that requires environmental resistance.

High speed whip pan (360°sideway) provides quick and certain shot.

Reliable jetproof structure.
